OUR CANDIDATE.

We this week place at our mast head, the name of Augustin Durbin, Esq., as the candidate of the Democracy of Cambria, Clearfield and Blair Counties, for the office of State Senator. The Conference acted wisely in placing him in nomination. He is a man of undoubted ability, and his integrity and faithful adherence to the principles of the party, have fixed him in the hearts of the Democracy of this county. It will be seen by reference to the proceedings of the Conference which we publish in another column, that the struggle for the nomination was a protracted one, and Messrs Pershing Kittell and Zahm, deserve credit for the fidelity with which they throughout adhered to the "favorite son of Cambria." Mr. Durbin's competitors were Mr. Wallace of Clearfield, and Mr. Snyder of Blair. They are both men of ability and reliable Democrats, and if either of them had been placed in nomination, we would of course have labored faithfully and zealously to promote his election.

It is unnecessary for us to say anything to our Cambria County readers in praise of Mr. Durbin, either as a man or a Democrat. They all know him as well as we do and respect and esteem him with equal sincerity. From our knowledge of his popularity among the Mountaineers, we are confident that he will run at least three hundred votes ahead of the rest of the Democratic ticket in this County, on the second Tuesday of next October.

Mr. Durbin was born and reared in this County, and may be truly said to have grown with its growth, and strengthened with its strength. Since arriving at the years of manhood, he has been a working member of the Democratic Party, and has always during important contests never failed in exerting his influence to promote its success. In 1852 the Democratic County Convention placed him in nomination for the important and responsible office of Sheriff. He was elected by a majority of 900 votes over a popular competitor. The average majority for the rest of the county ticket was only 500. He discharged the duties of the office during the term for which he was elected, in manner which commanded the approbation of candid and intelligent men of all parties. His popularity instead of diminishing has increased since 1852 as the returns of the next election will show.

Mr. Durbin is possessed of all the abilities necessary to constitute an efficient and reliable legislator. His abilities, it is true, are not of the brilliant or showy kind. His mind is eminently practical, and he is blessed with a large fund of common sense, without which no man can be either a faithful or useful member of either branch of our State Legislature. The State Senate especially, should be composed of sober, intelligent and thinking men who knowing the right dare maintain it. The fewer "talking Parrots" it contains the better for the people. The fact that a man can deliver a spread eagle speech, is no evidence that he understands the principles of our government, or knows when they are carried out. Mr. Durbin if elected to the Senate would be above the influence of cor-

rupt demagogues, and would never be afraid to say No, when principle required it. Now that our Ticket is complete, the Democracy of Cambria should at once go to work in earnest to secure its triumphant election. All past difference among the members of the party should be at once consigned to oblivion, and all unite heart and hand around the Banner of Democracy, determined to extend to the entire ticket an enthusiastic support. This is all that is necessary to secure success. We entertain no doubt that our brethren of Clearfield will faithfully do their duty in the coming Senatorial contest. They never falter in the hour of battle.

Melancholy Death.

On last Saturday morning, a farmer of Cambria township, named William Williams, brought a few bushel of potatoes to this place for sale; after disposing of them, he succeeded in getting a quart flask filled with very bad whiskey, and immediately commenced imbibing large doses of the liquid poison. In a short time he was intoxicated, and became quite noisy. Sometime during the afternoon probably about four o'clock, he staggered up street and seated himself on a chair in front of the "Union House," and remained seated there for some time. While so seated, we learn, he took several drinks from his flask, which of course increased his intoxication. He finally arose up, staggered across the street towards the "Arcade," then walked a few paces in the opposite direction, and again staggered and fell backwards, the back part of his head striking the surface of the street which consists of broken stone, with considerable force. In a few moments he rose up and remained for a short time in a setting posture, but soon fell over on his side. Several persons who were present, immediately went to him, and finding that he was insensible, took him in charge, and sent for Dr. Lemon. For some time he appeared to rally but never spoke, and expired without a struggle, about two hours after the accident happened. An inquest was held on his remains by Esq. Kinkead and six Jurors, and a verdict rendered in accordance with the evidence. Dr. Lemon in his testimony before the inquest said, "that death was probably caused by concussion of the brain; or it might have been apoplexy; could not say positively without a postmortem examination." It is but a simple act of justice to state, that all the hotel keepers in this place and their bar keepers, have positively refused furnishing the deceased with intoxicating liquor during the last year, and that the quart flask was not filled by any of them. He was a man of very temperate habits, and although when sober he was a quiet and kind hearted man, when intoxicated he was very boisterous and abusive. He owned a valuable farm a few miles from this place on which he resided. He leaves a wife to mourn his unhappy and unexpected death. From his appearance we conjecture that he was about forty five years of age.

The long expected come at last.—We have received the first number of the Alleghenian published in this place by Messrs Bolsinger & Hutcheson. The name of the Editor is not given. It is neatly printed, and presents quite a handsome appearance. The editorial articles are well written. It sustains the principles of the Black Republican party, but refuses to "hoist" the name of Lewis W. Hall for State Senator.

Mr. A. Blair, has just received at his Saloon, a lot of prime fresh Oysters, and the lovers of these delicious bivalves, should give him a call forthwith. He will keep them constantly on hand from now until next spring. Blair is accommodating and enterprising, and should be liberally patronized.

The Ebensburg Union School will be opened on next Monday. The Directors have appointed Mr. Ely Superintendent, and Edward D. Evans Teacher of the first department, Mr. Lemuel Davis of the second department, and Miss. Mary Jane Jones of the Primary department.

Mr. Ely was Superintendent of the Union School during last year, and gave universal satisfaction. As an Instructor of Youth, he has few superiors in the State. We are glad he has been reappointed. His salary has been fixed at \$40 per month. The teachers are all well qualified, and will doubtless discharge their respective duties faithfully. The session will continue six months.

St. FRANCIS COLLEGE LORETTO.—This institution under the charge of the Franciscan Brothers, will be opened on next Monday, for the reception of pupils. From our knowledge of the manner in which this institution is conducted, we feel justified in recommending it to the patronage of all who have boys or young men under their charge, to whom they wish to give a practical or classical education. For terms &c., see advertisement in another column.

A new breed of chickens, called the Eoliptendean, have recently been imported into this country. An exchange says, that instead of feathers they are covered with hair like that of a lap dog, and have a curious fanciful red ornament on the top of their heads. They are as white as snow, and really beautiful. A pair of them will probably be on exhibition at the next fair of the Cambria County Agricultural Society.

Some "Pumpkins"—Mr. Henry Ely of this place, has now on exhibition in his garden, a Pumpkin which measures three feet eight inches in circumference, and it is only half done growing.

We learn from a paper which we recently received from Yreka, Siskiyou County, California, that Lieut. Charles M'Dermitt has been placed in nomination for the office of State Legislator, by the Democracy of that County. Lieut. M'Dermitt formerly resided in this place, and served his country faithfully during the Mexican War. We rejoice to hear that his honesty and abilities are properly appreciated in the land of gold.

Professor G. W. Huey, gave a concert on last Monday evening, at the Independent Church in this place. The concert was attended by a large and attentive audience. All present were highly delighted with the singing, and unanimously declared Mr. Huey the best Professor of vocal music who has ever taught that delightful science in this county. His kind, affable and gentlemanly manners, have secured him many friends in this place who bid him farewell with regret. We hope it will not be long until he will again visit our town for the purpose of instructing another class in vocal music.

Yankee Loomis and his "Troupe" performed in the Town Hall on Monday and Tuesday evenings of this week. We believe they will perform again to-night. If so, all should attend. The Ladies are capital vocalists, and sang a number of new and beautiful songs. The "Old Yankee" is a real genuine living wag, and makes some excellent hits. If you want to hear sweet singing and enjoy a hearty laugh call at the Town Hall on Monday evening.

The Aurora described in the following item, which we clip from the Pittsburg Post, was visible in this place, and attracted much attention. It is said to have been most brilliant at about 2 o'clock A. M.

"On Sunday evening, about half past seven o'clock, suddenly, as if it had sprung from some enchanted cavern, a light, a brilliant Aurora Borealis, spanned the heavens over the city. About two thirds of the heavens were at one time covered with a thin, luminous vapor, and through the pale mellow light the stars were seen dim-twinkling like gems in a great wreath of silver. In the East, the light was white and brilliant, while in the West, it took a pale roseate hue, like a distant fire. Such indeed, it was supposed to be, and an alarm was raised, but before the engines had proceeded far the pencilled rays shot up to the zenith, and thousands upon the streets were admiring the display of this unaccountable but most beautiful phenomena of nature.

THE IRON CITY COMMERCIAL College of Pittsburg, Pa. guarantees to give thorough instruction in every branch of study advertised in its circular.—It is now the largest and most thorough Commercial School of the country, and students are constantly attending from the most distant States.

Senatorial Conference. The Conferees appointed to nominate a Democratic candidate for Senator in the district composed of the counties of Blair, Cambria and Clearfield, met at the Tyrone City Hotel, in Tyrone City, on Thursday the 25th instant, and organized by electing Dr. R. W. Christy, of Blair Co., Chairman, and J. H. Larimer, of Clearfield, and Cyrus L. Pershing, of Cambria, as Secretaries.

The following Conferees presented their credentials: Blair County—Dr. R. W. Christy, S. T. Murray, Esq. and John C. Eberhart. Cambria County—William Kittell, Esq., Geo. C. K. Zahm, and Cyrus L. Pershing. Clearfield County—J. H. Larimer, F. G. Miller, and D. F. Eizweiler.

On motion the Conference proceeded to make nominations for Senator. S. T. Murray, nominated Maj. Theo. Snyder, of Blair. Geo. C. K. Zahm, nominated Augustin Durbin, of Cambria. F. G. Miller, nominated W. A. Wallace, of Clearfield. The Conference then proceeded to ballot, after the 135th ballot the Conference adjourned to meet to-morrow morning at 7 o'clock. Tuesday Morning Aug 26, 1859.—The Conference met. After the 220th ballot Maj. Snyder appeared before the Conferees, and withdrew his name as a candidate.

On the 221st ballot Augustin Durbin received 5 votes and W. A. Wallace 3 votes.

On motion of S. T. Murray, Esq., the nomination of Mr. Durbin was made unanimous.

On motion, Messrs. Eizweiler, Zahm and Murray, were appointed a committee to inform Mr. Durbin of his nomination.

Mr. Durbin appeared before the Conference and in a short address accepted the nomination. The Conference then adjourned, R. W. CHRISTY, Pres.

J. H. LARIMER, Secy.

Heavy Shipment of Cattle.—We learn that on Friday last, one hundred and seventy cars loaded with cattle, passed over the Pennsylvania railroad, en route for the east, being the aggregate of the arrivals at Altoona that morning and the night previous. Each car is allowed to carry from sixteen to eighteen thousand pounds of live stock. At the former figure, the weight would be two millions eight hundred and thirty-two thousand pounds or one thousand four hundred and sixteen tons of live stock passing over the road in one day.

Heavy Sentence.—George Anderson, a negro arrested in Columbia some weeks since charged with committing a most brutal outrage upon Mary Connelly, a white girl between eight and nine years of age, in Salisbury township, near the Gap, was tried at the Quarter Sessions in Lancaster, and convicted. The counsel for the prisoner tried to prove an alibi, but failed. The jury after an absence of about ten minutes, returned a verdict of guilty, and Anderson was sentenced to twelve years imprisonment in the Eastern Penitentiary—the extreme penalty of the law.

The Presidency.—The M'Kinney (Texas) Messenger nominates the Hon. Sam Houston as the "Union candidate" for the next Presidency, subject to the convention of the people at the ballot-box.

Letter from Washington.

Correspondence of "Democrat & Sentinel." Washington, August 20, 1859.

The inquiry of Baltimore.—The Wise—Donnelly letter.—The next Census.—As Sodom and Gomorah were destroyed for their iniquities, so would Baltimore have been, had she existed at that ancient age. Every morning the question is asked here, "how many were killed last night in that delightful locality of Rip Raps, Plug-Uglies &c. Crime in fact seems to run riot in our neighboring city, and many persons are fearful to sojourn there for any length of time. An omnibus with them, and overheard their conversation planning to kill Rigdon. When he got out, they determined that as dead men tell no tales he should suffer for having ears to hear, so they quietly dispatched him by beating his stomach with sand bags, and the inquest decided, for there were no marks of violence upon his body, that he came to his death through a dispensation of Providence. It seems they reduce murder to a science in that region, and understand the plan of ridding earth of its humanity, without fear of detection.

The Wise—Donnelly letter, contrary to my hopes, is a sinner pure affair, and there was a regular Kilkenny fight, in the papers, to know who let the cat out of the bag. It appears a Mr. Devine, the Albany Correspondent of the N. Y. Herald, obtained a copy of it from Peter Cagge Esq. Gov. Wise in attempting to deliver the voice of the Empire State in the next National Convention, by sending two delegations as he suggested in his epistle, denounces a standard of political morality, which ill becomes a candidate for the Presidency, and has destroyed his prospects for the succession entirely. "The pen is mightier than the sword." Virginia is now likely to present the name of Hon. R. M. T. Hunter, as her choice for President.

In the next Congress no party will have a majority. The Southern Americans hold the balance of power, and will of course use it for their own advancement pecuniarily or politically. There will be difficulty in effecting an organization, and a month may elapse ere a speaker is chosen. Capt. Edmund French, Engineer and paymaster of the Bureau of Construction. Treasury extension, was arrested yesterday, on a charge of forging vouchers whereon to obtain certain sums of money, on the 1st of May 1859. The amount of frauds is estimated at \$15,000. He is a graduate of West Point, was formerly engineer to the Croton water works of New York, and until this occurrence, had always borne a high reputation. His salary was \$3,000 per year. He gave bail in the sum of \$10,000 for his appearance at the Criminal Court. The arrest caused no little excitement in the Treasury building at the time.

On Sunday night last, a fire occurred in the Capitol work shops, supposed to be the work of an incendiary, which consumed several large frame buildings and illuminated the entire city. The marble turning lathes, apparatus for sawing marble &c., were all destroyed, losing about \$15,000. Mr. R. Ten Broeck is making a good thing out of his American horses in England. At the Goodwood races he netted about \$200,000, and on the 4th of August he carried off the Queen's gold cup at Brighton, with his horse Olympus. He has established the motto of his steeds on the English turf, and put money in his purse besides.

A Southern Editor, who was once engaged in taking the census, makes some timely suggestions for 1860. He says each farmer this fall, as he gathers his crops, should keep something like a statement of the number of acres of land, cleared and tumbered, the number and value of his horses, mules, cows, hogs, &c.; the number of bushels of wheat, rye, corn, oats, Potatoes, &c.; and the value of each; the names and ages of his family, the births and deaths—and all the other necessary facts and leave it with some member of his family, and when the Deputy Marshal calls he can readily obtain it. This would save time and be the means of obtaining a reliable census.

In regard to the effect in Europe of Gen. Cass' last letter relative to Ernest, in which the views of the Administration were plainly stated to be that it would protect a foreign citizen equally as an American born, the European Times has the following: "The German powers, however distasteful it may be to them, will give way, and they will respect the rights of the Germanic Americans who return from the 'Far West' with a handsome amount of dollars with which to pass the evening of their days in their native country. It is a remarkable fact that there is no great power in the world with so small an army and navy as the United States, and yet which makes itself more feared and respected abroad."

The Baden Government has declared that it does not require American naturalized citizens, who have been subjects of Baden, to perform duty there in case they return on a visit, even if they did emigrate without consent. So, the Governments of Europe will, no doubt, shortly admit the right of expatriation which we so boldly assert.

The canvass in California has assumed a violent and personal character. Broderick, Gwin, Latham, et. al. are pitching into each other immoderately. They are determined to "crush out" each other, and from the advices received this evening pistols and coffee are likely to be ordered for a dozen. Yours, CARROLL.

Governor of Kentucky.—The official majority for Magoffin, democrat, for Governor of Kentucky, is 9,182. He will be inaugurated on the 30th inst.

Startling News from the Border.

Five thousand Kaw, Osage and Comanche Indians threatening the Frontier.—One hundred Indians and five Whites reported Killed.

KANSAS CITY, August 16, 1859.

The Western Metropolitan Extra has the following: This (Friday) morning, Mr. Charles A. Hassler, a merchant at Emporia, arrived in this city bringing news of an alarming nature concerning recent attacks by the Indians upon the settlers of Whitewater and Walnut rivers, in Butler and Greenwood counties, Kansas Territory.

The number of Kaw, Osage and Comanche Indians in that vicinity is about five thousand all warriors. They have lately removed from the Little Arkansas, where they have been collecting for some time back, for the purpose it seems, of driving back the settlers from the frontier. Some interpret their motive to be revenge for the hanging of the two Kaws at Council Grove some time since; but this would hardly seem so, as the point of attack is some seventy miles distant. It may, however, be a plan to decoy the men away, so that the point mentioned will fall an easy prey. Certain it is that the people at the Grove have anticipated an attack for some time.

On Thursday morning, 11th inst., a messenger reached Emporia from the Lower Whitewater, bringing information that an engagement had taken place between the Indians and whites near the town of Eldorado, in which one hundred of the former and five of the latter were killed.

The same day another messenger arrived from Chelsea, fifteen miles above, bringing a note from Mr. N. S. Stoops of that place, stating that the town was surrounded by Indians, and that they were momentarily expecting an attack. He appealed for assistance, in order to get his family away. That evening a company of fifty left Emporia, expecting to reach there next morning, a distance of fifty miles.

A man came from Emporia as our informant left, Friday evening, who stated that he met the company nearly at their destination, and that no attack had yet been made upon that place.—Missouri Democrat.

Riot Near Philadelphia.

A serious riot took place at Tacony yesterday afternoon. A great number of persons had been attracted to that point by a sailing match, a picnic by the pupils of St. Vincent's Sunday School, and a target firing by the Franklin Rifle Company, a German volunteer organization. There was a strong gathering of rowdy hangers-on. The rowdies commenced the fight as usual, and amused themselves by pelting the Germans. Three persons were seriously stabbed, and carried off by their friends. The Franklin Rifle Company then marched down to the wharf, when they were assaulted with a shower of stones, bricks, etc. The members of the company retaliated with the butts of their pieces, some of which were broken and strewn about the landing. One of the officers fought with his sword. He was knocked down and his sword taken from him by a police officer, who thought the infuriated Ten-ton behaved like a madman. Soon after this some of the members of the company loaded their rifles with pebbles and fired into the crowd of their assailants. Two persons were wounded, but their injuries are not of a serious character. The police used their utmost efforts to put a stop to the riot, and were partially successful. The steambath, Thomas A. Morgan stopped at Tacony at seven o'clock when the soldiers, rioters and policemen, including a squad of officers from Frankfort, embarked on board for the city, where the parties landed peacefully. The rowdies groaned and hissed as the company marched up from the landing, but otherwise there was no attempt to create a disturbance. Three of the members of the Rifle company were cut about the head in a shocking manner.

A Woman Burned to Death.

On Friday evening last, the wife of Mr. W. Hager, residing in the vicinity of Altoona, was so badly burned while endeavoring to rescue her child, whose clothes had caught fire from a fluid lamp, that she died the following Sunday. It appears that the unfortunate lady had placed a fluid lamp on the table, and that it had exploded, setting fire to the clothes of the child. This alarmed her so much that, instead of endeavoring to smother the fire she ran with the child into the open air, thus fanning the flame. A Mr. Barker, at this juncture came to her relief, and snatching the child from her, quickly divested it of its clothing. He next attempted to strip Mrs. H. in likewise, but she resisted and it was only after a struggle that he got off so much of her dress as was on fire. The unfortunate woman was shockingly burned, and though prompt medical aid was procured, her life could not be saved. The child was also badly burned, but may possibly recover.

Mons Blondin.

On Wednesday, successfully performed his promised feat of carrying a man across Niagara river on his shoulders. Mr. Colcord, Niagara's agent, was the adventurous individual who submitted to the experiment. The performance was witnessed by an immense crowd, and is to be repeated again.

Duel.

Two persons named Scott and Bender fought a duel at New Orleans on the 15th instant, with Colt's navy revolvers, at twenty paces. At the first fire Mr. Scott's right arm was shattered just above the elbow.

A Locksmith in Frankfort on-the-main.

Has hit upon the ingenious idea of constructing a strong box without any keyhole at all, and which even the owner himself cannot open. Inside is a clockwork the hand of which the owner places at the hour and minute, when he again wants to have access to the box. The clockwork begins to move as soon as the lid is shut, and opens the lock from the inside at the moment when the hand indicates.

On the 15th inst., three negroes were sold in Huntsville, Ala., for cash, who brought in the aggregate \$4,180—an average of \$1,390. A girl 17 years of age sold for \$1,430, a boy 16 years old for 1,540, and a boy 12 years old for \$1,200.

Special Election in the Sixties Congressional District.

It is understood that upon certain conditions which have been duly considered by his personal friends, Mr. Sickle will voluntarily surrender his claims to represent the third Congressional District.

Monument to Commodore Perry. The city council of Cleveland, Ohio, have contracted for the erection of such a monument in their park, and the work has been placed in the hands of an artist. The plan determined on is for a monument, about 25 feet high, consisting of an ornamental pedestal, adorned with appropriate bas-reliefs, and crowned with a statue of Perry; the statue to be eight and a half feet in height.

A North Carolina Editor had the following notice put up over his desk: "Persons wishing to see the editor will generally find him in the printing office or tavern. In his absence, however, invitations to drive or challenges to fight may be left with the publisher, or any of our delinquent subscribers call when we are out, the 'devil' will be despatched in search of us."

SPECIAL NOTICES.

Physicians are generally both to speak a word in praise of what are called "patent medicines." Indeed, it is an article in the medical ethics, that a physician who sanctions the use of such remedies cannot be considered a member of the National Association. But there are exceptions to the most stringent rules, and many of the disciples of Esculapian have been compelled, by the force of facts, to recommend the use of Dr. J. H. ROSEBERRY'S SYMPTOM BITTERS, for those diseases which are particularly prevalent during the summer and fall. They have ascertained that there are no remedies in the pharmacopoeia which compare with this wonderful compound for the treatment of the system. Thousands of families residing along the low grounds of the Western and Southern rivers, are now convinced that they have found a medicine peculiarly adapted for their ailments, while in other portions of the country, during the summer months, the demand for the article is generally large. Sold by druggists and dealers equally.

WHY WILL YOU DELAY?

Why will you neglect that disease which is taking such deep root, and which gives you warning by that hacking cough, that you are fast ripening for eternity? Why encourage that pain in the side, the raising of blood, those night sweats, or that difficult breathing, which silently whisps in your ear that something must be done to save you from the grave of the consumptive? Why act so carelessly in permitting that disease to destroy your health, and hasten you to the tomb from whence no traveler ever yet returned? August 3, 1859. Im.
